Why Partner with Godavari Wave Technologies?

Tailored for Your Vision

We don't believe in one-size-fits-all. Every solution we build is custom-crafted to match your unique business model and goals.

Built for Real Business Impact

Our apps aren't just functional — they're strategic tools designed to help you grow, scale, and succeed in your market.

Smart Pricing, No Surprises

Top-tier development at pricing that makes sense. Transparent, honest, and built to suit your budget.

Deadline-Driven Delivery

We stick to timelines like clockwork — without cutting corners. Your launch date is our mission.

Always-On Support

Questions at midnight? No problem. Our support team is always just a message away — before, during, and after launch.

Experience & Innovation

With **10 years** in the tech game and **90+ skilled** experts, we bring deep industry knowledge and fresh ideas to every project.

About Me

Rajiv Chand Kakara

Managing Director & CEO

Godavari Wave Technologies Pvt. Ltd.

Andhra Pradesh india

I am Rajiv Chand Kakara, a native of Rajahmundry and a proud alumnus of GIET College. With over **10 years** of progressive experience in the technology sector, I began my career in **2016** as a Software Developer and steadily advanced into leadership roles.

By 2018, I was serving as CEO, where I spearheaded strategic initiatives, optimized team performance, and delivered projects that drove measurable growth. In December 2024, I founded Godavari Wave Tech in my hometown, envisioning it as a hub for innovation, talent development, and high-impact digital solutions.

Within just **2 years**, the organization has scaled from a small core team to a workforce of over **90 skilled** professionals. We specialize in delivering advanced software solutions, comprehensive digital marketing services, and operating a dedicated training institute that empowers aspiring technologists with industry-relevant expertise.

Innovation happens when **passion meets purpose.**

— **Rajiv Chand Kakara**
Managing Director & CEO

Key Highlights

Why Choose Us?

Expertise in Cutting-edge Technologies

We stay updated with the latest industry trends to deliver innovative solutions.

Customized Approach

Every project is tailored to meet your specific business requirements.

On-time Delivery

Commitment to deadlines while ensuring quality.

End-to-End Support

From ideation to post-launch maintenance, we've got you covered.

Our Products

At Godavari Wave Technologies, we provide a diverse range of innovative products designed to meet the unique needs of various industries.

We specialize in custom-designed applications tailored to your business requirements, ensuring a seamless user experience. Whether it's mobile apps, web solutions, or enterprise systems, we work closely with you to create solutions that align perfectly with your goals, preferences, and vision. Our team of experts is committed to delivering high-quality, scalable, and efficient applications that drive success and enhance business performance across different sectors.

E-Commerce Websites

Custom e-commerce platforms with secure payments, easy inventory management, and seamless shopping experiences.

Food Delivery Platforms

Efficient food ordering, delivery with real-time tracking, secure payments, customizable menus, fast processing, and personalized recommendations.

Hospital Management

Systems for booking, billing, and managing operations in hospitals and hotels to boost efficiency and improve service quality.

Real Estate Platforms

Platforms for managing property listings, searches, and virtual tours, enhancing real estate services and client engagement.

Transportation & Logistics

Solutions for fleet management, route planning, and real-time tracking to optimize logistics operations and improve delivery efficiency.

Billing Software

Simple, accurate billing & payment tracking software for smooth financial management, seamless transactions, and easy account monitoring.

Event Managements

Event management platforms streamline planning, registration, ticketing, schedules, and attendee engagement for seamless event execution.

Job Portal Platforms

Job portal platforms connect employers with job seekers, enabling job listings, applications, and recruitment management for both parties.

DIGITAL MARKETING SOLUTIONS

Boost Your Brand, Maximize Your Growth!

In today's digital era, having a strong online presence is essential for business success. Our comprehensive digital marketing solutions help businesses enhance visibility, engage their audience, and drive more conversions. We use data-driven strategies and the latest marketing techniques to ensure you stay ahead of the competition.

Our Digital Marketing Services

SEO

Improve your search engine rankings with expert strategies in keyword optimization, on-page/off-page SEO, technical SEO, and link building to boost visibility and conversions.

SMM

Build your brand presence on social media with tailored strategies, content creation, audience engagement, and paid campaigns on platforms like Facebook, Instagram, and LinkedIn.

PPC

Drive instant traffic and sales with Google Ads, social media campaigns, retargeting, and budget optimization to maximize ROI.

Content Marketing

Create valuable, engaging content including blogs, website copy, videos, and email marketing to attract, engage, and retain customers.

Email Marketing & Automation

Reach your audience with personalized email campaigns, drip campaigns, audience segmentation, and performance tracking to boost conversions.

Government Projects

Digital solutions for a smarter, more transparent Andhra Pradesh.

Digital Door Number (DDN)

A smart QR-based addressing system for Andhra Pradesh's 123 Urban Local Bodies. Each property gets a unique digital identity, connecting citizens with property details, municipal payments, government services, emergency contacts, local businesses, and community services through a simple QR scan.

DTCP ERP

A unified digital platform for the Directorate of Town and Country Planning, Andhra Pradesh, managing building permissions, layouts, land regularisation, revenue, accounts, works, assets, legal cases, staff, GIS, and citizen services across 21 Urban Development Authorities and their local bodies. It brings applications, payments, workflows, and administration into one centralized system with integrated government portals and financial systems.

PuraMithra Municipal ERP

A unified digital platform designed for Urban and Rural Local Bodies, bringing revenue, licences, permissions, finance, works, assets, citizen services, administration, GIS, and reporting into one connected system. It enables faster online services, transparent workflows, integrated payments, automated reconciliation, and centralized government monitoring.

CCC – Command and Control Center for APSCSCL

Andhra Pradesh State Civil Supplies Corporation Limited:

A dynamic command and monitoring platform that integrates application-wise KPIs across the entire civil supplies workflow, from paddy procurement and transportation to rice mills, buffer godowns, MLSPs, FPSs, and PDS distribution. It brings data from multiple applications into a unified view, enabling real-time monitoring, KPI tracking, and actionable insights.

APSFL – Andhra Pradesh State FiberNet Limited

A unified Business Support System (BSS) integrating the BSS dashboard, Agent App, and Middleware to manage and monitor AP FiberNet operations. It supports the delivery of Internet, IPTV, and Voice services through a single fiber network, while enabling customer, agent, network, setup-box, and service management through an integrated digital ecosystem.

REAL STORIES. LASTING IMPACT.
